

Center Treatment Services Policy

To assist us in providing the best level of care for your family, and for other families in the community, our policies regarding treatment services are:

1. We will be setting aside time for you on a weekly basis, and we will need a serious commitment from you to protect that time and attend scheduled sessions consistently.
2. Clients need to come regularly and on time to appointments. If an appointment needs to be cancelled, please be courteous and give at least 24-hour notice whenever possible so that time can be rescheduled for another client/family.
3. Depending on client's level of care and/or if more than two appointments are missed in a row without notification, we will need to have a review to consider whether or not your time can be saved while other clients are waiting for services.
